

Space Resources Week

As part of Space Resources Week, Partner Karl Pardaens took part in a Space Mining Roundtable discussion at LuxExpo on 21 April. The discussion aimed to give an understanding of legal aspects for establishing cross-sectoral and international ventures for in-situ resource utilisation.

The Space Resources Week focusses on the synergies required for the development of an inclusive space resources utilisation ecosystem, as well as on ways of accelerating the use of space for the benefit of humankind.
